### **Summary**

I am a senior lecturer in Restorative Dentistry at the faculty of Dental Sciences, University of Peradeniya, Sri Lanka which is the only dental school in the country. I am a passionate teacher and together with the excellent clinical skills I possess constitute to the core of the department in teaching and training both undergraduates and postgraduates in the fields of endodontics, operative dentistry and indirect restorations. In addition I am the course coordinator in the Skills training courses of the dental curriculum carrying out simulator training in the skills laboratory. I have been a key member of the curriculum development committee which undertook major revisions in the dental curriculum over the last few years. In the research aspect, I was the recipient of two research grants from the University of Peradeniya and contribute to many research projects of undergraduates and postgraduates alike. I am also an examiner for the MD in Restorative Dentistry conducted by the Postgraduate Institute of Medicine, University of Colombo, Sri Lanka which is the only qualification which facilitates board certification in Restorative Dentistry. In addition I also examine on the MD Orthodontics examination and the diploma examinations in dental practice. I have recently been involved in developing an MSc in general dental practice as well, which would be implemented in the near future. I would consider myself as a well accomplished individual and a team player in achieving high clinical and academic standards for the institution.
